

18. GLOSSARY

Abbreviations

AC – Antimonopoly Compliance

ACPP – annual comprehensive procurement program

AFC – anti-fraud and corruption

AIS – automated information system

AR – accounts receivable

AS – additional services

AS – administrative staff

CC – charter capital

CCA – competitive capacity auction

CDA – Capacity delivery agreement

CES – Common Economic Space

CHPP – combined heat and power plant

CI – calibration interval

CIW – construction and installation work

CPRU – Corporate and Property Relations Unit (division performing the function of a corporate secretary)

CRMS – Customer Relations Management Systems

DAM – day ahead market

EEU – Eurasian Economic Union

EPC CIS – Electric Power Council of the Commonwealth of Independent States

ESI – Employee Satisfaction Index

ESV – Energosbyt Volga

FAS of Russia – Federal Antimonopoly Service of Russia

FHUF – fuel heat utilization factor

FTS of Russia – Federal Tax Service of Russia

FGC UES – Federal Grid Company of the Unified Energy System

GE – General Electric

GEIDCO – Global Energy Interconnection Development and Cooperation Organization

GMS – General Meeting of Shareholders

GNERC – Georgian National Energy and Water Supply Regulatory Commission

GS – Guarantee Supplier

GSC – General Service Center

GTU – Gas turbine unit

HDN – heat distribution networks

HKUST – Kellogg-Hong Kong University of Science and Technology

HPP – Hydraulic power plant

HWS – hot water supply

IAU – Internal Audit Unit

ICRMD – Internal Control and Risk Management Department

ICUF – installed capacity utilization factor

IDP – individual development plans

IES – Integrated Energy Systems

IETC – innovative energy technologies center

IFRS – International Financial Reporting Standards

ILO – International Labour Organization	RMICF – risk management and internal control framework
IPI – intellectual property items	RNC ICLES – Russian National Committee of the International Council on Large Electric Systems Non-Profit Partnership
IR – Investor Relations	Rosimushchestvo – Federal Agency for State Property Management
IRD – internal regulatory documents	RSEC – Russian State Electrification Commission
JSC – joint-stock company	RUIE – Russian Union of Industrialists and Entrepreneurs
KPI – key performance indicators	SAIDI – System Average Interruption Duration Index
LECC – low emission combustion chamber	SAIFI – System Average Interruption Frequency Index
LLC – limited liability company	SCIGE – selecting composition of included generating equipment
MIRBIS – Moscow International Higher Business School	SFEC – specific fuel equivalent consumption
MOEK – Moscow United Energy Company	SME – small and medium-sized enterprises
NPP – nuclear power plants	SO UES – System Operator of the Unified Energy System
OIFES – occupational, industrial, fire, and environmental safety	SPA – Scientific Production Association
OSG – open switchgear	SPO – specialized procurement organization
PB – performance benchmarks	STPP – Sochinskaya Thermal Power Plant
PJSC – public joint-stock company	SWCA – special working conditions assessment
POS – production and occupational safety	TEI – technical and economic indicators
PPE – personal protective equipment	TPI – target program indicators
PSC – power supply companies	TPP – thermal power plant
PTL – power transmission line	UCP – United Capital Partners (Юнайтэд Кэпитал Партнерс)
R&D – research and development	UEC – United Engine Company
RAS – Russian Accounting Standards	UISC – Unified Information and Settlement Center
RAU – retrofitting and upgrading	UPD – unified payment document
RCBC NP – Russian-Chinese Business Council non-profit partnership	WECM – wholesale electricity and capacity market
REPM – retail electric power market	WPP – wind power plant
RES – renewable energy sources	

Measurement units

Gcal – gigacalorie (thermal power measurement unit)

Gcal/h – gigacalorie/hour (thermal power measurement unit)

GW – gigawatt (electric power measurement unit)

Hz – hertz (electric current frequency)

kV – kilovolt (voltage measurement unit)

kVA – kilovolt-ampere (total power measurement unit)

kW – kilowatt (electric power measurement unit)

kWh – kilowatt-hour (generated electric power measurement unit)

MW – megawatt (electric power measurement unit)

tfe – ton of fuel equivalent (measurement unit)

t/h – tons per hour (steam generation measurement unit)

tnf – ton of natural fuel (measurement unit)
